

# Canon EOS A2 Battery Replacement

Written By: Dozuki System

## INTRODUCTION

Your battery may be the cause of many problems. Knowing how to access it is very important.

## Step 1 — Canon EOS A2 Battery Replacement

- Locate the battery door/camera grip on the left side of the camera and lift the rotating removal tab.

## Step 2

- Twist the tab clockwise to unlock the door, then pull outward from the camera to remove it.

### Step 3

- Remove the battery from inside the battery housing and set the cover aside.

To reassemble your device, follow these instructions in reverse order.
