INTRODUCTION

The battery will need to be recharged or replaced after it runs out of power. The memory card should be replaced, too, once its storage is full.

⚘ TOOLS:

- Spudger (1)

Step 1 — Canon Powershot SD880 Batteries/Memory Card Replacement

- Locate the battery cover at the bottom of the camera.

- Slide the cover in the direction away from the lens.

- The cover should pop up, revealing the slot where the batteries and the memory card are inserted.

To reassemble your device, follow these instructions in reverse order.
