Dismantling guide for Smart Phones

Written By: Maarten Depypere

TOOLS:

- [Opening Tool](#) (1)
 - [Opening Pick](#) (1)
 - [Suction Handle](#) (1)
 - [P2 Pentalobe Screwdriver](#) (1)
-

Step 1 — Smart Phone

- Pry open the casing and remove the back cover.
- Carefully remove the battery without bending or puncturing it.

Step 2

- Unscrew the casing.

Step 3

- Pry off the screen.
- Remove the PWB.

Step 4

- Remove any separate boards.
